

Oculis to Participate in Upcoming Investor Conferences

Mar 5, 2026

ZUG, Switzerland, March 05, 2026 (GLOBE NEWSWIRE) -- Oculis Holding AG (Nasdaq: OCS; XICE: OCS) ("Oculis" or the "Company"), a global biopharmaceutical company focused on innovations addressing ophthalmic and neuro-ophthalmic diseases with significant unmet medical needs, announced today that Oculis' management will participate in upcoming investor conferences in March.

Oculis is pleased to present updates of its innovative, highly differentiated, late-stage portfolio as it enters a pivotal phase in its transformation into a leader in neuro-ophthalmology and ophthalmology. Key highlights include: **Privosegtor (PIONEER program)** granted breakthrough therapy designation for optic neuritis (ON) as Oculis advances the registrational program in two optic neuropathies to address a potential market opportunity of \$7B+ in the U.S. alone; **OCS-01 (DIAMOND Phase 3 trials)** topline results in diabetic macular edema (DME) on track for Q2 2026; **Licaminlimab (PREDICT-1 registrational trial)** being evaluated as the first genotype-based development program to drive precision medicine in dry eye disease (DED).

With a strong balance sheet and robust pipeline, Oculis is well-positioned to deliver 6 pivotal readouts with the current funding, to fulfil its mission to save sight and improve eye care with groundbreaking treatments.

About Oculis

Oculis is a global biopharmaceutical company (Nasdaq: OCS; XICE: OCS) focused on breakthrough innovations to address significant unmet medical needs in neuro-ophthalmology and ophthalmology. Oculis' highly differentiated late-stage clinical pipeline includes three core product candidates: Privosegtor, a breakthrough neuroprotective candidate in the PIONEER program which consists of studies intended to support registration plans for treatment in optic neuropathies like optic neuritis (ON) and non-arteritic anterior ischemic optic neuropathy (NAION), with potentially broad clinical applications in various other neuro-ophthalmic and neurological diseases; OCS-01, an eye drop in pivotal registration studies, aiming to become the first non-invasive topical treatment for diabetic macular edema (DME); and Licaminlimab, a novel, topical anti-TNF α in registrational trial, which is being developed with a genotype-based approach to drive precision medicine in dry eye disease (DED). Headquartered in Switzerland with operations in the U.S. and Iceland, Oculis is led by an experienced management team with a successful track record and supported by leading international healthcare investors.
